Henry Wilson is a keen cyclist. He loves going on long cycling trips. Henry and his friend, Cody, are cycling in Argentina now. We phoned Henry to ask him a few questions …

Adventures on two wheels

1 Why do you like long cycling trips?
I love the feeling of freedom, and being outdoors. Also, we meet a lot of interesting people!

2 What's the most difficult thing about this trip?
The altitude. We're going to cycle over the Andes mountains to Chile. It isn't easy cycling above 4,000 metres because there isn't much oxygen.

3 Do you eat a lot of food when you're cycling?
Yes, we're always hungry! Cycling uses a lot of energy.

4 Where do you sleep?
Tonight we're sleeping in a hostel. We usually carry a tent so we can camp if there aren't any hostels.

5 What do you do in the evenings?
We read, write our diaries, eat, relax, plan our route … At the moment, Cody is washing some clothes, and I'm talking to you! We also write blog posts and emails to tell people at home about our adventures.

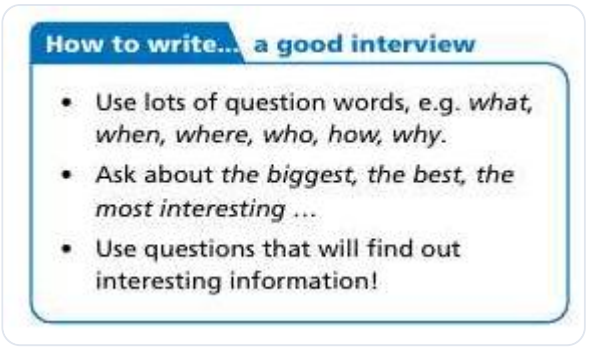

6 What other trips have you done?
We've cycled in lots of countries: Spain, Italy, Slovenia, Iceland … Ten years ago we cycled from Ecuador to the very south of Argentina. We cycled about 8,000 kilometres in eight months!

7 Are you planning any more trips?
No, but we have lots of ideas. I want to cycle in the Himalayas, Oman and North America!
