TopCity the exciting new game

Amazing game!
by GameFan

This game is fantastic! I downloaded it onto my tablet last month and I play it every day. In the game, you travel around a city, looking for treasure. In every building in the city, you have to click on an icon and solve a problem. The problems get more difficult, so you have to work harder. It's good to challenge yourself!
To move around the city, you have to write instructions. It's like programming a computer. I'm learning lots of new skills! Now I can move around much more easily. Last night I scored 50,000 points!

Good points:
1 It was easy to start playing. First I had to click on the icon to start the game and then I had to type a password. Then I could move around the city!
2 The graphics are really good.

Any bad points? The game isn't free, but I think it's good value!

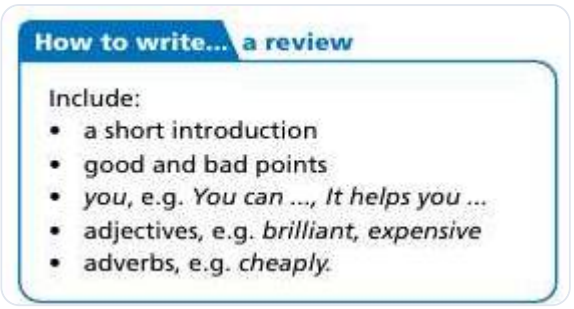

Not bad
by MrCool001

This is quite a good game, but I think there are lots of programming games that are better.

Good points:
1 You can watch a video to help you learn how to play. It gave me some good tips.
2 You can play it online with your friends. That's fun!

Bad points:
1 I had to buy it! I think it's too expensive.
2 It doesn't work on all my devices – I can't download it onto my phone.
