WOW! Learning Club: directions and classifying technology

Lesson 3-6
Book pages 92-95

💡 **Big idea:** We give **directions in a town** using **turn left/right, go straight on, go across, go through, go past, go along**. In Science, we **classify technology** into groups using a **tree diagram** with Yes/No questions.

🎯 **I will learn:**
- Read and follow directions on a map
- Ask for and give directions in a town
- Classify technology using a tree diagram and key

📖 Key words

turn left انعطف يسارًا	**go straight on** امشِ مباشرة	**go across** اعبر	**go past** امرّ بجانب
go along امشِ على طول	**bridge** جسر	**square** ساحة	**classify** يصنف

Places in a town

- college
- airport
- bridge
- fire station
- theatre
- office
- square
- Firefighters work in a **fire station**
- Teenagers and adults study in a **college**
- You can drive or walk over a **bridge**
- A **square** is a big space in a town

Directions in a town

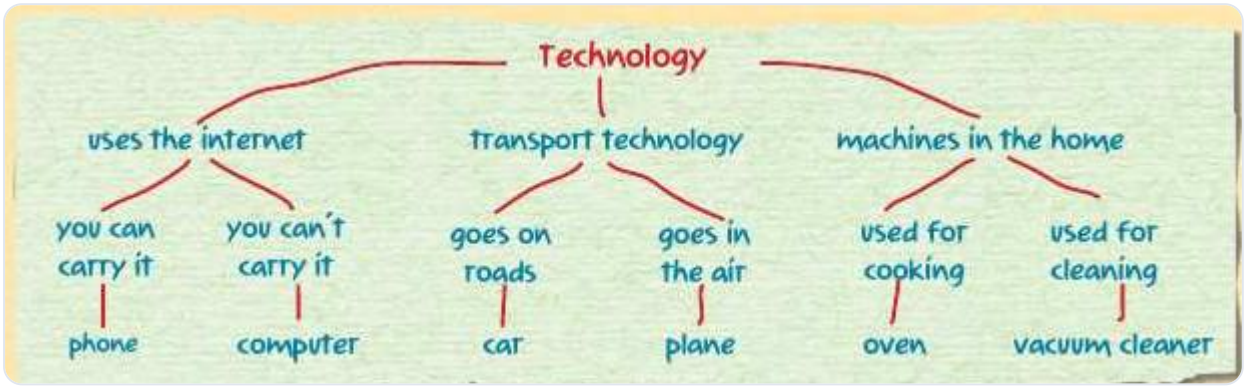

- Excuse me. Can you tell me where the stadium is, please?
- **Turn left / right**
- Take the **first / second / third** on the left / right
- Go **straight on / along** the road
- Go **through** the gate / **around** the fire station
- Go **past** the college / **over** the bridge / **across** the square

How can we classify technology?

- Technology uses **science** to make things that help us
- We can classify it into groups: **uses the internet** (phone, computer), **transport technology** (car, plane) and **machines in the home** (oven, vacuum cleaner)
- There is **old and new** technology: a steam train is old, **Virtual Reality** is new
- A **tree diagram** helps us see and understand groups quickly

Directions on a map

Tree diagram: classifying technology

✏️ Examples

You want to go to the other side of the river.

Answer: Go over the bridge.

Classify: vacuum cleaner

Answer: machines in the home, used for cleaning

⭐ Remember

- Draw the map in your head and follow each step in order
- Classify by asking Yes/No questions: Does it use the internet? Can you carry it?

⚠️ Watch out

- Go across the bridge is fine, but we usually say go **over** the bridge

🧩 **Activity:** Draw or find a map and take turns asking for and giving directions

✅ Check yourself

1. Where do firefighters work?
2. Which group is a plane in?
3. Name old technology

Answers: (1) a fire station ، (2) transport technology ، (3) steam train
