

Literacy: Reading and writing an information text

Lesson 2-5
Book pages 54-55

💡 **Big idea:** An **information text** gives **facts** in full sentences. We can write one using a **fact file** (name, type, home, food, size, body, family, interesting facts).

🎯 **I will learn:**
- Read fact files and information texts
- Learn vertebrate / invertebrate, insect / reptile
- Write an information text about an animal

📖 Key words

fact file بطاقة معلومات	**information text** نص معلوماتي	**vertebrate** فقاري	**invertebrate** لا فقاري
insect حشرة	**reptile** زاحف	**strange** غريب	**stingray** اللخمة (سمكة الراي)

Fact files

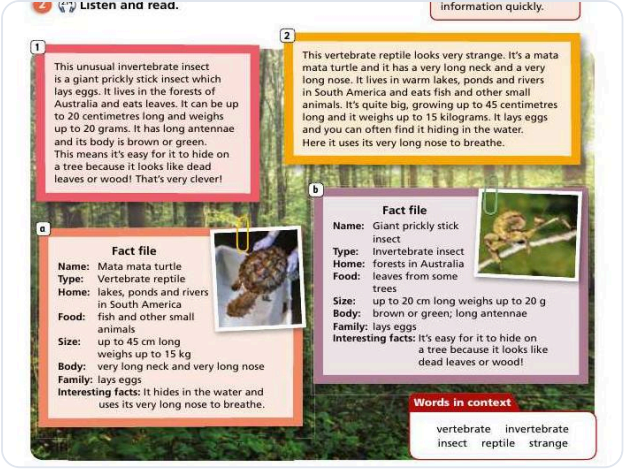

- **Giant prickly stick insect**: invertebrate insect from forests in Australia. Up to 20 cm, eats leaves, lays eggs. It hides because it looks like dead leaves
- **Mata mata turtle**: vertebrate reptile from South America. Up to 45 cm and 15 kg, very long neck and nose. It hides in the water and uses its nose to breathe
- **Hammerhead shark**: a fish in warm oceans, up to 6 m and 450 kg. Its head looks like a hammer. It eats stingrays and uses a sixth sense to find them in the sand

How to write an information text

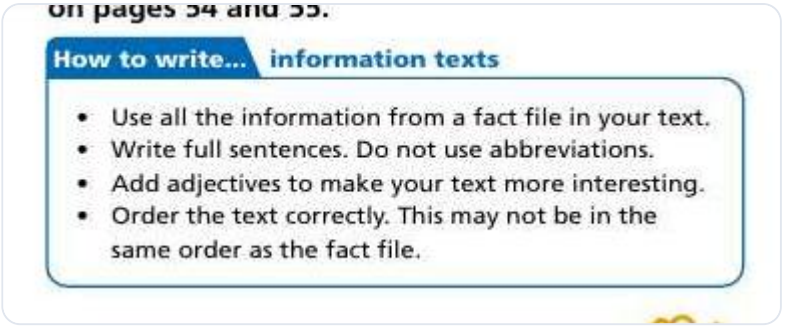

- Use all the information from the fact file
- Write full sentences. Do not use abbreviations
- Add adjectives to make the text more interesting
- Order the text correctly. It may not be the same order as the fact file

it's or its?

- **it's** = it is / it has: It's better at climbing than jumping!
- **its** = possession: It uses its very long nose to breathe.

Fact files and information texts (p.54)

How to write an information text (p.55)

✏️ Examples

Fact file → sentence: Food: leaves

Answer: It eats leaves from some trees.

it's or its: The shark uses ___ head to find food.

Answer: its

⭐ Remember

- Read the headings in a fact file to find information quickly
- Vertebrates have a backbone (fish, reptiles, birds, mammals). Invertebrates don't (insects)

⚠️ Watch out

- ✗ Its a fish. ✓ It's a fish.
- ✗ The turtle uses it's nose. ✓ The turtle uses its nose.

🧩 **Activity:** Choose an animal, make a fact file with a picture, then write an information text

✅ Check yourself

1. Is a stick insect a vertebrate or invertebrate?
2. Where does the mata mata turtle live?
3. How long can a hammerhead shark be?
4. Does an information text use abbreviations?

Answers: (1) invertebrate ، (2) in South America ، (3) up to 6 metres ، (4) No
