Reading and Writing Reports

💡 **Big idea:** A **report** gives facts. Read *Plastic pollution in the sea*: by **2050**, there will be **more plastic in the sea than fish**! Use the title, first paragraph and diagrams to understand it quickly.

🎯 **I will learn:**

- Understand the main idea of a report
- Use diagrams to understand information
- Write a report about a survey

📖 Key words

report تقرير	**foundation** مؤسسة	**tonne** طن	**piece** قطعة
business شركة / مؤسسة تجارية	**government** حكومة	**end up** ينتهي به المطاف	**survey** استبيان

Plastic pollution in the sea

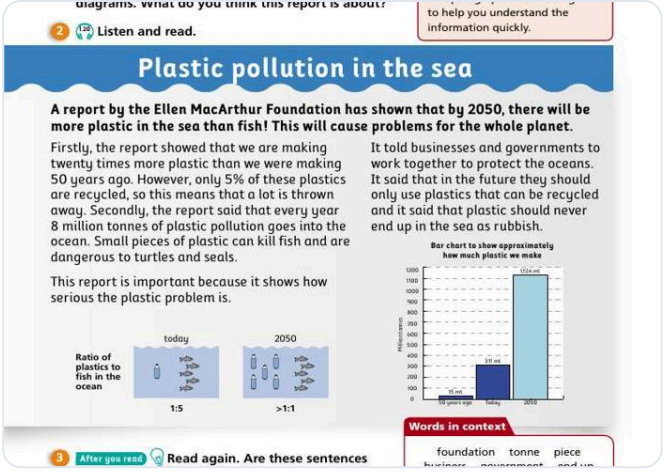

- We make **twenty times** more plastic than 50 years ago
- Only **5%** of plastics are recycled
- Every year **8 million tonnes** of plastic go into the ocean
- Small pieces of plastic can kill fish and are dangerous to turtles and seals
- Businesses and governments must work together to protect the oceans

Reading tip

- To understand the main idea of a report, read the title and the first paragraph
- Use the diagrams to understand the information quickly

How to write a report

- Use a clear title
- Start with what the report is about
- Give facts and numbers
- Finish with what we learned or what we should do

2 Listen and read.

to help you understand the information quickly.

Plastic pollution in the sea

A report by the Ellen MacArthur Foundation has shown that by 2050, there will be more plastic in the sea than fish! This will cause problems for the whole planet.

Firstly, the report showed that we are making twenty times more plastic than we were making 50 years ago. However, only 5% of these plastics are recycled, so this means that a lot is thrown away. Secondly, the report said that every year 8 million tonnes of plastic pollution goes into the ocean. Small pieces of plastic can kill fish and are dangerous to turtles and seals.

This report is important because it shows how serious the plastic problem is.

It told businesses and governments to work together to protect the oceans. It said that in the future they should only use plastics that can be recycled and it said that plastic should never end up in the sea as rubbish.

Ratio of plastics to fish in the ocean

today 2050

1:5 >1:1

Bar chart to show approximately how much plastic we make

Words in context

foundation tonne piece

3 After you read Read again. Are these sentences

Report: Plastic pollution in the sea

🧩 **Activity:** Do a survey in your class about recycling and write a short report with a title, facts and a conclusion

✅ Check yourself

1. How much plastic is recycled?
2. How much plastic goes into the ocean every year?
3. By 2050, what will there be more of in the sea?

Answers: (1) only 5% ، (2) 8 million tonnes ، (3) plastic than fish
