WOW! Learning Club 1: Large Numbers and Environmental Problems

Lesson 3-6
Book pages 92-95

💡 **Big idea:** Learn to say **large numbers** in English and words for **environmental problems** like gases, fossil fuels and cutting down forests, and explain **how or why** something happens like a scientist.

🎯 **I will learn:** Read and write large numbers | Learn words for environmental problems | Explain causes and effects

📖 Key words

one hundred مئة	**one thousand** ألف	**ten thousand** عشرة آلاف	**gases** غازات
fossil fuels الوقود الأحفوري	**burning** الاحتراق	**cutting down forests** قطع الغابات	**dying plants** نباتات تموت
soil تربة	**air pollution** تلوث الهواء		

Large numbers

- 100 = one hundred
- 250 = two hundred and fifty
- 785 = seven hundred and eighty-five
- 1,000 = one thousand
- 10,000 = ten thousand
- We say **and** after hundred

Environmental problems

- Burning **fossil fuels** puts **gases** in the air
- **Cutting down forests** means fewer trees to clean the air
- Air pollution and soil pollution harm **plants** and animals

Talking about cause and effect

- This is causing pollution
- This has caused pollution
- This happens because of global warming

✏️ Examples

Write 375 in words

Answer: three hundred and seventy-five

🧩 **Activity:** Make a cause and effect presentation about pollution caused by plastic rubbish

✅ Check yourself

1. How do you say 1,000?
2. Give an example of fossil fuels
3. Complete: This happens ___ of global warming

Answers: (1) one thousand ، (2) oil or coal ، (3) because
