Bo's Learning Club 2: Health

💡 **Big idea:** In **Science** we learn about **health and illness**: a cold, a headache, a stomachache, a sore throat, a cough. We give advice with **should** and **shouldn't**: You should rest in bed. You shouldn't go to school.

🎯 **I will learn:**

- Name common illnesses
- Give health advice with should and shouldn't
- Act out a visit to the doctor
- Say what I do to stay healthy

📖 Key words

healthy صحي	**ill** مريض	**a cold** زكام	**a headache** صداع
a stomachache ألم في المعدة	**a sore throat** التهاب الحلق	**a cough** سعال	**medicine** دواء
rest in bed يرتاح في السرير	**should** ينبغي	**shouldn't** لا ينبغي	

Health and illness

- Healthy children play lots of sports and eat fruit, vegetables and fish
- But we all feel ill sometimes
- Illnesses: **a cold, a headache, a stomachache, a sore throat, a cough**

Health advice

- Stomachache: You **should** drink lots of water. You **shouldn't** eat a lot.
- Headache: He **should** have some medicine. He **shouldn't** play video games!
- Sore throat: She **should** have some medicine. She **shouldn't** shout!
- Cold and cough: He **should** rest in bed. He **shouldn't** go to school.

At the doctor's

- Hello. **What's the problem?** / **What's the matter?**
- Hello, doctor. **I don't feel well.**
- I have a cold. **What should I do?**
- You should rest in bed. You shouldn't go to school.
- Thank you, doctor.

At the doctor's: What's the problem?

✏️ Examples

I have a headache. What should I do?

Answer: You should have some medicine. You shouldn't play video games.

Give advice for a stomachache

Answer: You should drink lots of water. You shouldn't eat a lot.

⭐ Remember

- should = good advice
- shouldn't = bad idea
- Always take medicine with an adult's help

🧩 **Activity:** Act out visiting the doctor with your partner
