Theme 4: Innovation

Reading for Pleasure: Omani Invention, Paper from Palm Leaves

Lesson 4-6
Book pages 60-63

💡 **Big idea:** **Mustafa Barami**, an SQU student from Salalah, invented a way to make **paper from date palm leaves**. It won a silver award and helps the **environment**. Across Cultures: **Malaysia**.

🎯 **I will learn:**
- Read an interview about an Omani invention
- Understand the environmental benefits
- Learn facts about Malaysia

📖 Key words

cellulose السليلوز	**pulp** لب الورق	**environmental** بيئي
award جائزة	**pollution** تلوث	**competition** مسابقة

The invention

- Mustafa Salim Abdullah Barami from Salalah studied chemistry at SQU
- About 3 million tonnes of palm waste were burned each year, causing pollution
- Date palm leaves contain 35%-45% cellulose, good for paper
- He won a silver award at an invention fair in Kuwait

Benefits

- Less pollution from burning leaves
- Paper bags can replace plastic bags
- Saves the world's forests

Malaysia

- Capital: Kuala Lumpur
- Petronas Towers
- Rainforests and rare animals like orang-utans
- Religion: mostly Islam

Reading for Pleasure

Genre: Interview

Omani Invention: Making Paper out of Palm Leaves

Mustafa Barami presenting his research work to His Majesty Sultan Qaboos bin Said at the Associated Fair of the Sultan Qaboos University Cultural Centre in December 2010

Mustafa Salim Abdullah Barami is a talented young inventor. While still an undergraduate student at Sultan Qaboos University, he had an idea about how to make paper out of date palm leaves. This idea won him a silver award at the Third International Invention Fair of the Middle East, hosted

Omani Invention: Making Paper out of Palm Leaves (p.62)

✏️ Examples

Why are palm leaves good for paper?

Answer: They contain a lot of cellulose, the main content of paper.

⭐ Remember

- In an interview text, read the questions first to find information quickly.

⚠️ Watch out

- Paper can only be made from wood. → It can also be made from palm leaves.

🧩 **Activity:** Think of a local waste product in Oman and suggest a useful invention from it.

✅ Check yourself

1. Where is Mustafa from?
2. What does paper mostly contain?
3. Capital of Malaysia?

Answers: (1) Salalah ، (2) Cellulose ، (3) Kuala Lumpur
