Unit 2: Climate Change

Listening and Speaking: A class debate

Lesson 2-3
Book pages 18-19

💡 **Big idea:** We listen to Grade 10 students in a **debate**: "Governments should do more to stop global warming." We sort arguments **for** and **against**, learn **agreeing and disagreeing** expressions and use **word stress** to emphasise points. We also discuss ways to reduce our **carbon footprint**.

🎯 **I will learn:**

- Understand new vocabulary about climate policy
- Identify the topic of a debate
- Sort arguments for and against
- Agree and disagree in a debate
- Choose ways to reduce my carbon footprint

📖 Key words

policy سياسة / مجموعة قواعد	**emission** انبعاث	**responsibility** مسؤولية	**regulate** ينظّم / يضبط
consumer مستهلك	**eco-friendly** صديق للبيئة	**debate** مناظرة	**argument** حجة

The debate

- Topic: Governments should do more to stop global warming
- **For**: we need new policies and laws to control global warming
- **For**: people are unlikely to change their habits
- **Against**: individual people have to take more responsibility
- **Against**: many people cannot afford eco-friendly products

Agreeing and disagreeing

- I completely agree with you
- That's a good point
- I'm afraid I disagree
- I see your point, but ...
- Use **word stress** to emphasise important words: Saving the planet is **more** important than money

Reduce your carbon footprint

- Turn off electronic devices you are not using
- Use less air conditioning, use energy-saving bulbs
- Fill the kettle with only as much water as you need
- Take showers instead of baths
- Walk, ride a bike or take public transport
- Buy local fruit and vegetables and plant trees

Ways to reduce your carbon footprint

✏️ Examples

Is this for or against: "Governments have a responsibility to educate people"?

Answer: For (it supports the topic)

Disagree politely: "Only governments can stop global warming."

Answer: I see your point, but individuals can make a big difference too.

Why buy local fruit?

Answer: Transporting food around the world burns fossil fuels.

⭐ Remember

- In a debate: state your opinion → give a reason → give an example
- Stress the key word to make your point stronger

⚠️ Watch out

- ✗ I am disagree. ✓ I disagree.
- ✗ eco-friendly means cheap ✓ eco-friendly means not harmful to the environment

🧩 **Activity:** Hold a short class debate on: "Plastic bags should be banned in Oman"

✅ Check yourself

1. Meaning of emission?
2. Meaning of consumer?
3. One way to save water?

Answers: (1) releasing gas, heat or light ، (2) a person who buys goods ، (3) take showers instead of baths
